

RIYU Quick Start Guide

1. Click on Askriyu.com and landing page appears.
2. To sign Up Click on Get started or Click on Sign in.

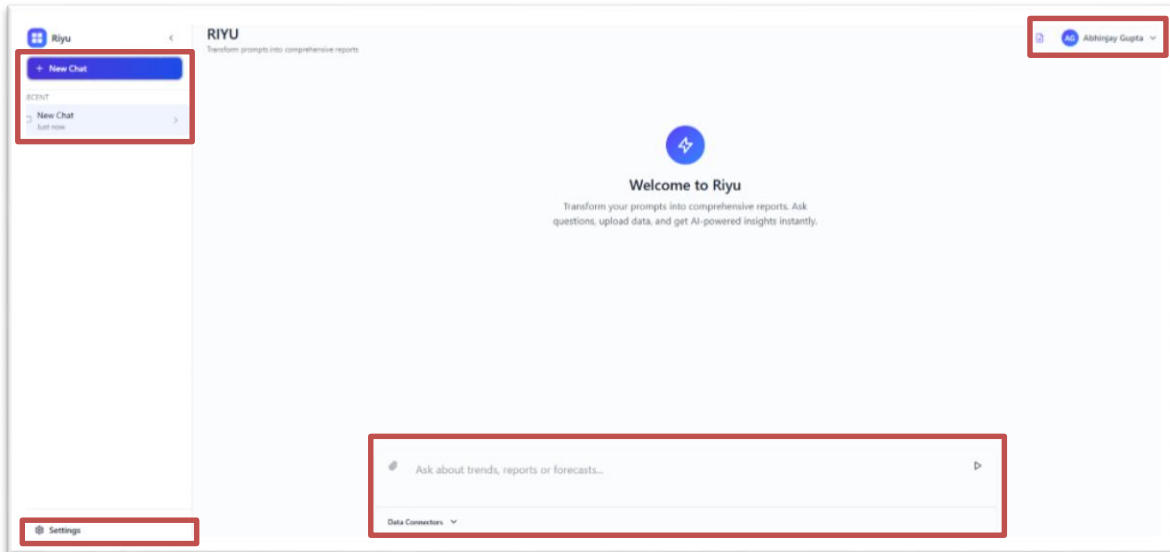

3. Fill in your email details and you can enter que with short approval time.

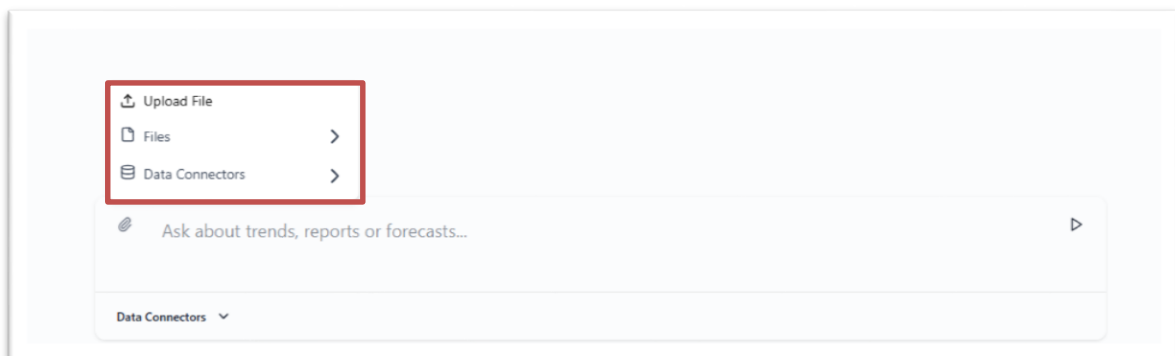

A screenshot of the 'Join the Waitlist' form. The form has a light blue background and a white input area. At the top, there is a Riya logo and the text 'Join the Waitlist' and 'Be the first to access Riya'. The form contains two input fields: 'Username (optional)' with the placeholder text 'yourname' and 'Email' with the placeholder text 'you@example.com'. Below these fields is a blue button labeled 'Join Waitlist'.

4. Once you have confirmation mail sign up and set password using your email, then you can sign in using the sign in option and enter user credentials leading to chat page.

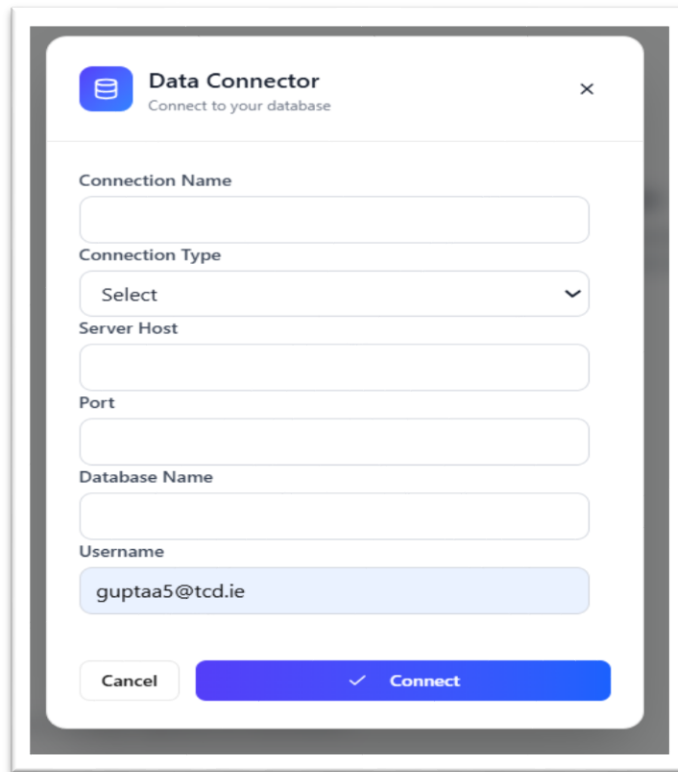

5. New chat opens up with left bar showing your current and previous chats and settings and top right user details with pop up cloud allowing to log out or switch to dark mode.

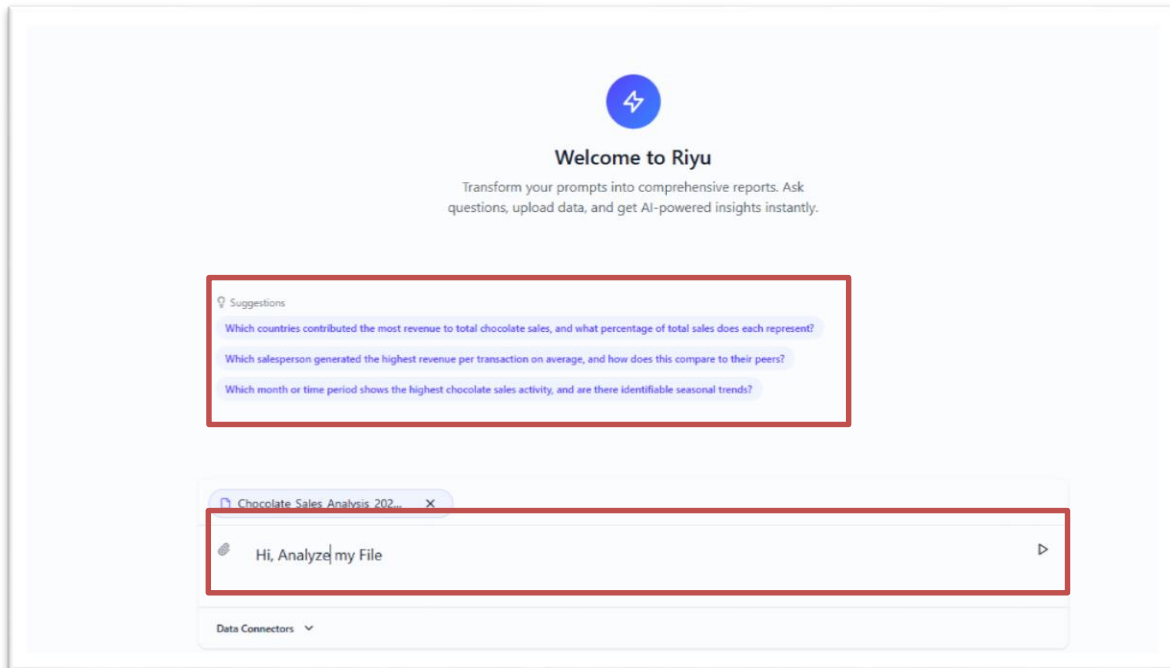

6. You can upload file using the paper clip attachment icon or connect data connector using data connector option.

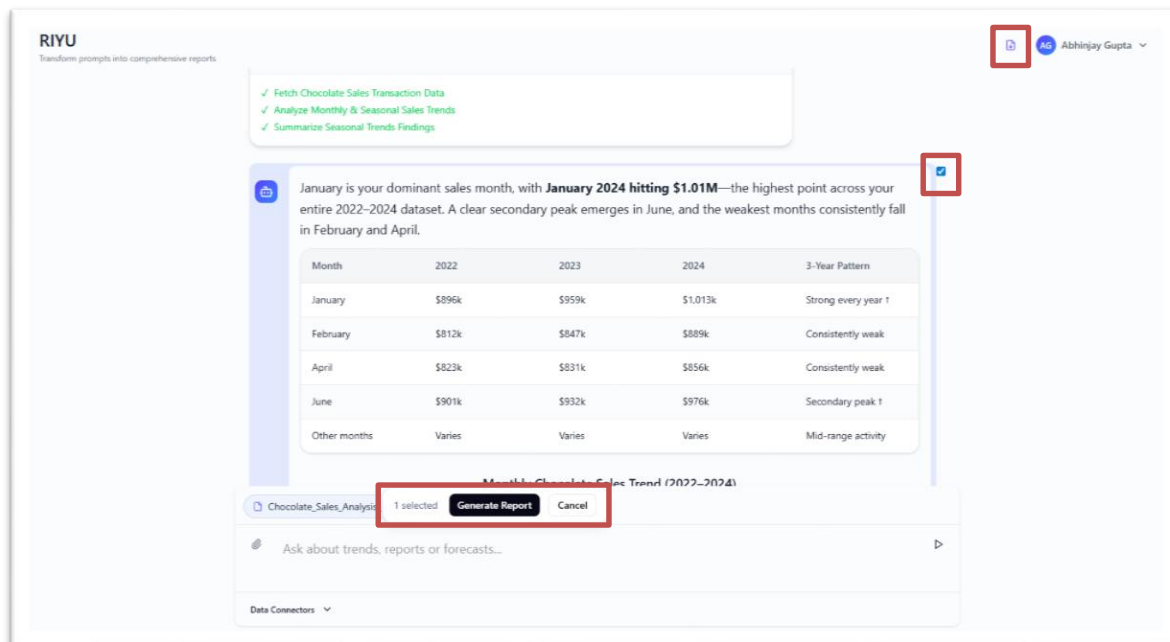

7. Upload new file using upload option in the attachment pop up or select from prev. uploaded files under uploaded file section or You can connect database using the Data Connector dropdown option and entering the details.

A screenshot of a 'Data Connector' dialog box. The dialog has a title bar with a blue icon and the text 'Data Connector' and 'Connect to your database'. It contains several input fields: 'Connection Name', 'Connection Type' (a dropdown menu with 'Select' and a downward arrow), 'Server Host', 'Port', 'Database Name', and 'Username'. The 'Username' field is filled with 'guptaa5@tcd.ie'. At the bottom, there are two buttons: 'Cancel' and 'Connect' (which is blue and has a checkmark icon).

8. Once Excel/CSV Uploaded or data connected Riyu generates recommended prompts and you can either select from them or Ask any query and hit enter or the play button.

9. Once the Query is entered the output can be exported by using the generate report functionality on top right next to user name- Select the desired messages and click on generate report to download PDF of output.

10. The settings page can be used to Manage - Account, Subscriptions, Reports Generated, Files Uploaded and Database Connected, delete or restore Archived chats, view Policies and FAQ's.
